UPDATES ON LEGISLATION

Resolution 16-12 IGA between the Department of Community Services and State Department of Health

On, January 27, 2016 Resolution 16-12 relating to a substance abuse prevention system was passed out of Full Council. The approval by Council allows the City and County to apply for a \$1.3 million grant issued through the State's Department of Alcohol and Drug Abuse Division. The funds will go to developing and implement a comprehensive substance abuse prevention system enhancement plan for Honolulu. The goal is to prevent and reduce the severity and disabling effects related to alcohol and other drug use, abuse, and dependency by assuring an effective accessible public and private community based system of prevention services designed to empower individuals and communities to make health-enhancing choices regarding the use of alcohol and other drugs.

Bill 80 (2015) Relating to the Disposal of Green Waste

This legislation is to hold the City's Department of Environmental Services (ENV) responsible for disposal of certain green waste resulting from the United States Navy's effort in eradicating the Coconut Rhinoceros Beetle on Oahu. As long as the green waste removal does not conflict against any City Ordinances, Administrative Rules, or departmental directives, ENV shall be held accountable of this duty. The type of green waste includes: tree branches under nine inches in diameter, hedges and plant cuttings, palm and coconut branches, vines and similar material. Bill 80 (2015) will be discussed further in the Public Works, Infrastructure and Sustainability Committee Meeting.

Bill 85 (2015) Relating to Taxicabs

Bill 85 (2015) was introduced to amend the regulation of taxicabs within the City and County of Honolulu. This Bill would update the regulation of taxicabs within the City to address recent developments in the industry and strengthen consumer protections. It would also clearly define "taxicabs" and "taxicab companies." This legislation was referred to the Committee on Transportation for further discussions.

Councilmember Manahan Represents Council at HSAC Legislative Package Briefing

On January 19 at the Hawaii State Capitol, Councilmember Joey Manahan presented to a room filled with State Representatives and Senators and Councilmembers from Kauai, Maui, and Hawaii the Honolulu City Council's addition to the Honolulu State Association of Counties' (HSAC) Legislative Package. The Honolulu City Council's proposal was submitted by Councilmember Joey Manahan and is a Bill for an Act Relating to Mopeds. The proposed Bill in the HSAC Legislative Package will amend various sections of the Hawaii Revised Statutes (HRS) to include mopeds in the State's

safety check program, and makes conforming amendments as needed. The Bill has been picked up by the senate's Transportation Chair, Senator Lorraine Inouye (District 4) who will sponsor the Bill for approval in this year's Legislative Session.

Mahalo to the Department of Facility Maintenance, Road Maintenance Division for installing the missing street signs on Eluwene Street and Kalihi Street.

Additional Safety Measures for Pedestrians

The Department of Transportation Services and the Department of Facility Maintenance installed an in-street pedestrian warning sign at the intersection of Richard Lane and North King Street. The newly installed sign will assist motorists approaching the crosswalk more efficiently by providing additional visual aid. More importantly, it will provide a safety mechanism for pedestrians as they cross the street.
