UPDATES ON LEGISLATION

Bill 24 (2016) — Relating to Refuse — Bill 24 (2016) states that, “No person shall throw, drop, place, dump, or deposit refuse, to include bulky wastes on a street, roadside, alley, highway, or public place except as provided in this chapter.” Any person caught violating illegal refuse activity shall be subjected to a civil fine not exceeding \$250. Bill 24 was reported out of the Committee on Public, Health, Safety and Welfare meeting on March 29, 2016 and is up for passage on second reading and is scheduled for public hearing at the City Council Meeting on April 20, 2016.

Resolution 16-62 — Requesting the City to Work with the State to Establish a Collaborative Funding Process by Which Service Providers and Developers May Apply for Homeless Assistance or Homeless Housing Funds Through a Single Combined Application — On March 30, 2016, the City Council's Committee on Budget approved Resolution 16-62 relating to the funding source for homeless assistance. Introduced by Councilmember Joey Manahan, the purpose for the resolution is to urge the City's administration to work with the State, and establish a collaborative funding process by which homeless service providers and developers may apply for funding. The current funding model is timely and inefficient and requires various applications to secure funding for programs targeting homeless. Councilmember Manahan proposes a new funding model be implemented that is structured similar to the State of Washington and combines the funder's application process.

HART Awards Fare Systems Contract

The Honolulu Authority for Rapid Transportation, in a joint procurement with the City's Department of Transportation Services (DTS), has awarded to INIT Innovations in Transportation, Inc. of Virginia a \$31 million contract to design, build, operate and maintain a new smart card pass system for use on TheBus and the Honolulu rail transit system.

“The smart card pass system not only lays the groundwork for Honolulu's multi-modal transportation system, it also helps us better meet the needs of the transiting public.” said city DTS Director Mike Formby.

“With the award of the fare systems contract, we're now on our way to providing our customers with the smart card technology they'll use to ride the rail transit system,” said HART Executive Director and CEO Dan Grabauskas.

INIT will provide new smart card readers on TheBus and ticket vending machines and fare gates at the rail stations.

The contract also calls for customer service terminals at Satellite City Halls and retail outlets to sell passes and load value onto the cards.

The contract is for design plus ten years of operation.

Opening and Blessing of Tutu Bert's House

On March 31, 2016, Institute for Human Services blessed & celebrated the opening of "TUTU BERT'S HOUSE" located in Kalihi. IHS partnered with Queen's Medical Center, who will assist with health plan resources, and HomeAid Hawaii, who conducted a complete renovation of an 8-bedroom residential home. It will provide a temporary "sanctuary for healing" for up to 12 medically frail homeless individuals to recuperate after hospitalization. The Honolulu City Council commends and congratulate the Institute for Human Services for the opening and blessing of **TUTU BERT'S HOUSE** and best wishes for continued success in all future endeavors.

***MAHALO** to the Hawaii Public Housing Authority for their continuous efforts to continue security enforcement around the Towers at Kuhio Park and for fixing and replacing the fence near the baseball field.*

Rehabilitation of Streets, Phase 12C

Phase 12C of the Rehabilitation of Localized Streets is packaged together with the Rehabilitation of Localized Streets, 12B.

The list will be provided along with this report and includes areas in the: Kalihi Area (Makai of H-1 Freeway to Nimitz Highway); Lower Kalihi Area (Kalihi Kai Industrial Area—Makai of Nimitz Freeway); and Kapalama/Iwilei Area.

The scope for private roads are to remove old pavement and resurface the asphalt concrete pavement, install pavement markings, and adjusting manhole frames and covers.

The scope for City roads are to replace damaged curbs and gutters, tree work, removing old pavement, reconstructing badly damaged sections of the roadway, resurfacing with asphalt concrete pavement, installing pavement markings, adjusting manhole frames and covers, and replacing traffic signal loop vehicle detectors.

Councilmember Manahan and the Council appropriated \$135 million for the Road Rehabilitation Project.
